## WORK EXPERIENCE

### Dot Net Developer Buckstox pvt.ltd

08/2023 - Present Pune  
Debugged software, participated in design meetings, code reviews, sprint planning, and resolved customer complaints with timely solutions.

#### Achievements/Tasks

- Successfully developed and deployed multiple full-stack applications.
- Led the development of key modules in a supermarket chain project.
- Resolved critical software bugs and issues.

### Internship Vector Skill Academy

02/2023 - 06/2023 Pune  
Developed communication strategies for projects, identified and resolved software issues, and analyzed error logs for potential technical solutions.

#### Achievements/Tasks

- Developed and deployed .NET Core application.
- Successfully participated in code reviews and sprint planning.
- Resolved critical bugs and optimized code.

### Internship Tech Sim Plus

03/2022 - 08/2022 Bhopal

#### Achievements/Tasks

- Learned Python, Django, AI, ML, and Deep Learning, gaining strong expertise in these areas.
- Applied theoretical knowledge to solve real-world problems with practical and impactful solutions.
- Built advanced projects like an E-commerce Recommendation System, AI Chatbot, and Automated Resume Screening System.

## EDUCATION

### Bachelor of Technology Rajiv Gandhi Proudhyogiki Vishwavidyalay(RGPV)

06/2017 - 08/2021 Bhopal  
Courses  
◦ Computer Science(cse)

### Higher Secondary Madhaya Pradesh Board of School Education

04/2016 - 05/2017 Bhopal  
Courses  
◦ Physics, Chemistry, Maths

## SKILLS

C# NET (MVC, Xamarin,) MVVM  
SQL React Javascript SQL  
PostgreSQL Python Django  
Pycharm HTML CSS AJAX  
Postman Swagger Crystal Report  
Git

## PERSONAL PROJECTS

### Publix Super Market

- Developed full-stack for a supermarket project, managing frontend (Angular), backend (.NET Core with Mediator pattern), and database (MS SQL Server). Contributed to three modules, with knowledge of two upcoming ones. Tech stack: Angular, Kendo UI, Bootstrap, Angular Material UI, .NET Core, MS SQL Server. Used Visual Studio, MSSMS, and Azure DevOps for version control and deployment.

### Friend Bee

- Added multiple functionalities, resolved bugs, and managed frontend, backend, SEO, and database. The project utilized .NET, .NET Framework MVC, LD JSON, and MS SQL Server.

### Pass Mobile Application

- Developed a mobile application for bidding on car scrap and car scrap parts. Utilized Xamarin, C#, and .NET to create a cross-platform app with a user-friendly interface for real-time bidding. Implemented secure authentication and robust database integration, with user authentication and authorization via Amazon Cognito for identity verification.

### Online Banking

- Developed an online banking system using C#, .NET, SQL, HTML, CSS, Entity Framework, and React.
- Integrated image processing for secure transactions and user authentication.
- Implemented AJAX and cascading dropdowns for an enhanced user experience.

### E-Commerce Website

- Built an ecommerce platform using C#, .NET, HTML, CSS, and JavaScript.
- Implemented dynamic features to enhance the user shopping experience.
